**Subject:** [EXTERNAL] Byhalia Pipeline docket: COE2020-0002

Hello,

I am writing you today as a concerned Memphis citizen, opposing the Byhalia Pipeline Project, and its intended construction through the heart of the Boxtown neighborhood.

This community already deals with lower than average health outcomes due to surrounding chemical plants and factories. The last thing Memphis needs is another noxious construction project with few-to-no environmental impact projections.

For heaven's sake! At the very least take the time to finalize a legitime environmental impact study before potentially devastating a unique community where many homeowners still live in houses built by their ancestors. Have some respect.
